Windows

Fedora

Simplicity You Want

User friendly interface that doesn't need training to navigate.

Reliable

Enterprise-grade reliability with consumer-grade usability.

Efficient

Set up within minutes with mass deployment options (or features).

Customizable

Feature Rich

features.

Enhance productivity with a wide range of

Customizable settings make it easy to manage and scale.

Splashtop Enterprise Features

Unified, high performance, secure remote access and remote support solution.

Empower employees to work anywhere, anytime on any device. Equip students and faculty with remote-access to on-campus computer labs, enhancing distance learning. Enable IT and helpdesk teams to remotely access, support and manage computers and mobile devices with unattended and attended support.

Help When You Need It

Splashtop's number one priority will always be to ensure we provide you with the best customer service experience possible.

Talk directly to an expert anytime you need it, regardless of company size. Situations arise on your schedule, not ours. That's why we provide support *24/7. If you want to talk to a live person, rather than chat or <u>email, we make that easy</u>, too.

No one wants to jump through hoops to understand pricing or cancellation. That's why we offer transparent business practices featuring clear and consistent pricing and flexible cancellation policies.

- *24/7 Global Support
- Simple pricing
- Easy and fast cancellation

*24/7 support is part of our premium support offering. Standard support is Mon-Fri, 8am - 6pm local time zones.

What Our Customers Say...

...about our support.

"I just wanted to send my appreciation to you and your wonderful support team for getting us sorted out with Splashtop... everyone at Splashtop has been excellent in guiding me through the setup of the system! I have to say that the customer support for this product is the best I have ever experienced."

...about our security.

"I do want to stress this out – Splashtop is so secure! You have a back-end for the administrators that has two-factor authentication, you can go to users and allow them to drag and drop files, put in a USB, copy-paste etc. Really, it's super, super secure."

Rick Campion

Technical Operations Manager Music Department at Goldsmiths University of London Andres Reyes Chief Technology Officer Boxel Studio

...about our performance.

"Splashtop isn't just fast, everything is seen and heard at the highest quality – and it's all synchronized,"

...about our simplicity.

"From the initial introduction through to giving users access, I was very impressed with the simple yet secure setup. We can manage users and groups and assign them on the fly."
